

# ERP Business Developer

Lyras A/S

Are you enthusiastic about ERP systems and would you like to develop and implement it at Lyras? We use Dynamics 365 Business Central, and you will be part of our task team and have special focus on the process flow in the financial department.

## Welcome to Lyras

At Lyras we develop, produce, and deliver our raslysatation systems for the liquid processing industry with a special focus on non-thermal processing of consumable liquids. Utilizing our raslysatation technology in place of conventional thermal pasteurization, we make it possible for our customers to considerably reduce their energy and water consumption. Through the expansion of our systems, we seek to accelerate the reduction of global CO2 emissions.

In 2021 alone, we have expanded our staff by over 300%, and we will continue our ambitious growth in the coming years. We pride ourselves on our fantastic culture and strong values which ensure continuous focus on well-being and development, as well as a positive and energetic community.

## Your primary tasks

- Develop and implement business processes through Microsoft Business Central, with focus on the financial part of the system
- Implement and operate flowing parts in BC: Accounts, Vendors, Customers, Invoices (in and outgoing), Expenses and other
- Cost management through BI and help Lyras to manage our overall cost strategy
- Support to service department in running service on our systems through the service module in BC
- Project management in BC
- Participate in meetings with colleagues in the ERP task team
- You will help and teach your colleagues in ERP system across the organization
- And much more

You will join a positive and engaged team and refer directly to the Head of Lean and Operations.

## Competencies and Experience

We expect that you have a relevant education in ERP systems or Finance (with knowledge and interest in ERP systems). You have at minimum of 2 years of experience from a similar position. You must be independent, enterprising and with an international outlook.

## **Personal Qualifications**

- You are a team player with a positive attitude
- You are structured, analytical, responsible, and curious about obtaining new knowledge
- You are persistent and want to make a difference for the climate
- You are proactive and willing to be the front runner on new tasks

## **Are you interested?**

We regularly review the applicant field and reach out for interviews, so do not hesitate to upload your CV and send an application if this position resonates with you. The deadline for application is 18th of September.

For additional information, you are welcome to contact our Recruitment and HR Manager, Niels Møller, at: +45 22 53 03 67.
